PDP Steel Frame 9 mm

Defense

PDP Steel Frame

Welcome to a new era of shooting where precision, power and the enduring allure of steel converge in perfect harmony. The PDP Steel Frame models stand as a testament to excellence and endurance setting new standards for the modern pistol. Whether you're a competitor in the arena or an enthusiast who demands nothing but the best in terms of precision and durability.

The PDP Steel Frame series will redefine your every expectation. The substantial weight of the steel frame is a game-changer, significantly taming recoil and delivering a level of smoothness in every shot that's second to none.

Product features (PDP Steel Frame Match): Dynamic Performance Trigger, Performance Duty Texture, Optics Mounting, enhanced magwell and larger magazine capacity. Two 20-round capacity and one 18-round capacity magazines inclusive, Wrap-Around Grips.

PDP Polymer 9 mm

Defense

PDP Polymer Match

Crafted with superb balance of function and performance-based firepower, the PDP Polymer Match is the epitome of durability, endurance, and precision. The full-size polymer frame is capable of withstanding highest and lowest temperatures to support firing endurance and keeps the longevity of the firearm regardless of the elements it's in. The larger capacity magazine, along with an aluminum mag well and basepads, not only exudes style but brings efficiency to magazine changes. Add in the tenifer-ppq coated slide adorned with dynamic slide cuts, and the result is a handgun that is lightweight and sophisticated.

PDP F-SERIES

With the PDP F-Series Carl Walther GmbH is expanding its successful pistol model series and once again setting standards in the world of duty pistols. The PDP F-Series is the first duty pistol developed explicitly for women and small hands. A completely new striker-fired operating system has been uncompromisingly implemented in order to bring down the force needed to rack the slide.

PDP F-Series 3,5"

PDP F-Series 4,0"

PDP Compact 4"

The classic format: the Compact with 4" barrel. Perfectly proportioned for instinctive target acquisition and comfortable carrying. The magazine holds 15 rounds. Compared to the PDP Full Size, the grip and magazine are more compact, i.e. shorter. With its dimensions of 184 x 135 x 34 millimeters and 70 mm trigger reach, the 4" Compact is predestined for duty applications as well as concealed carry. The 102 mm barrel brings the required energy to the target - reliably. Polygonal barrel, Performance Duty Trigger, Optics Ready. Reversible push button magazine release, 2 magazines, magazine loader, adjustable polymer sights, polymer gun case.

2851814

PDP C 4.0" 9x19 15R OR

9 mm Luger

763,87

PDP Compact 5"

The Compact with a plus in barrel length and sight radius: 25 millimeters that make the difference for the precision enthusiast. Less muzzle flip owing to more mass towards the muzzle. The precision machine in the compact class. The interplay of long polygonal barrel, Performance Duty Trigger and best possible ergonomics results in values that are not only technically but also emotionally convincing.

2851695

PDP C 5.0" 9x19 15R OR

9 mm Luger

763,87

PDP Full Size 4"

The format for the stronger hand and with extra magazine capacity. The grip is 8 mm longer. More comfort for the hand and space for three additional cartridges. Additional height results in outer dimensions of 184 x 143 x 34 millimeters. The grip circumference at trigger height is identical to the Compact's size, i.e. trigger reach is a short 70 mm. The 4" is first choice for duty applications and comfortable carry in the full size class. The magazine holds 18 cartridges. Polygonal barrel, Performance Duty Trigger, optics ready.

Reversible push button magazine releaseholder, 2 magazines, magazine loader, adjustable polymer sights, polymer gun case.

2851822

PDP FS 4.0" 9x19 18R OR

9 mm Luger

763,87

PDP Full Size 4,5"

The reference class in the full size category. Analogous to its smaller sister in the compact class, the 4.5" Full Size is perfectly proportioned for instinctive hitting. The harmonious ratio of barrel length and grip size has the potential to become a classic of tomorrow! The silhouette is characterized by dynamic, expressive lines. A true all-rounder, with or without slide mounted optics. A working tool under the most adverse conditions, but also for sporting use. The PDP performs. Always. Polygonal barrel, Performance Duty Trigger, Optics Ready. Reversible push button magazine release, 2 magazines, magazine loader, adjustable polymer sights, polymer gun case.

2851741

PDP FS 4.5" 9x19 18R OR

9 mm Luger

763,87

PDP Full Size 5"

PDP Maximum! 5" barrel length and full size grip. There has never been more Walther! With 18 rounds in the magazine and a 5" barrel, it is trimmed for uncompromising performance.

Again, typical PDP: the low sighting line for quick target acquisition. The very low-mounted 3-dot sights support instinctive target acquisition, guiding the PDP intuitively to the target. Polygonal barrel, Performance Duty Trigger, Optics Ready. Reversible push button magazine release, 2 magazines, magazine loader, adjustable polymer sights, polymer gun case.
